#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### DETAILED ACTION

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 7,13 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 7 depends on 6; not 1; thus the same as 13. Applicant is requested to re-consider claims 27-29, to ensure no other duplication; also, it is not clear what a 5 plant source is at claim 29.

Claims 1-31 stand rejected under 35 U.S.C. 102(b) as being anticipated by Reinhart 5776524.

The rejection is maintained, because Reinhart provides the feeds and steps of the instant method, thus inherently improving, maintaining, and exchanging healthy function of skin and coat systems.

1. Claims 1-31 are rejected under 35 U.S.C. 103(a) as being unpatentable over Reinhart 5776524 in view of Lab Diet 098, Marsh et al WO 9856263 and Shields et al 6156355 and Ballevre et al EPO 850569.

The rejection of record stands, with consideration now of the former "use" claims. The references all promote health and provide both prebiotics, as explained by applicant, and probiotics, to promote bifido and lacto bacteria growth. Inulin is shown by Bellevre to be in (page 2, lines 15-40) high concentration in chicory, thus an obvious plant source of a prebiotic as utilized by Reinhart, Marsh, and Shields, as a less expensive source for pet foods than other inulins.

Applicant's arguments filed 1/6/06 have been fully considered but they are not persuasive. Applicant objects to the references as NOT discussing the claimed methods of skin and coat health maintenance and improvements. The modifications as seen by combination of references are either directed at coat improvement, as discussed by Marsh and shields, or are seen as evident to one in the pet food arts as sources of pre- and probiotic ingredients useful to pet food inclusion or supplementation in order to promote normal bacterial beneficial, and bifido lactobacterial growth, in order to enhance pet health. The benefits of the instant claims would thus be at least, of incidental, if not expected results.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
